

How "A Plot for a Million" Will End.

READY TO PLAY BALL.

New York's Team Now in Trim for Opening Day.

Manager Davis Pleased with the Giants' Practice Games.

Eddie Burke Fears Consequences of His Attractive Personality.

(From The Evening World's Special Correspondent with the Team.)

JACKSONVILLE, Fla., March 12.—It looks as if the Giants were to encounter a streak of hard luck or else they have not fixed things with the weather prophet. Last Friday rain put a stop to the good work, and yesterday a storm cut the game short at the end of the second inning.

During the night it rained again, and when the boys got up this morning the sky was dark and threatening, and but little, if any, real practice could be done to-day.

While the game lasted yesterday, it showed that the boys were in fine condition, and proved that they knew a thing or two about the game. The playing was sharp and full of snap.

It was Smith's turn to distinguish himself, and he got there with a vengeance. He was everywhere, and was an important factor in four of the six putouts. Stafford also put up a good game, and he certainly is a fixture at Johnny Ward's old corner.

Harry Wright, the chief of umpires, arrived in Jacksonville yesterday. He came over with the boys, and he will immediately, and in the future will watch their work carefully.

The team were the guests of Alexander Salvi at the Park Theatre last night and saw him in the "Three U.S. Men."

If the Giants put up the article of baseball throughout the season that they did in their first exhibition game here yesterday, the coming pennant fight will be a case of catch me-if-you-can, in the New York City will be the leaders, first, last and all the time.

From the time "Dad" Clarke sent the first ball across the plate until Smith ended the game by vainly endeavoring to connect with one of Louie McKen's twisters, the game bristled with snap and ginger. Every man played the hardest he knew how, and the score was 1 to 2, showed how pretty the fielding was.

As might have been expected, the center of interest was the showing made by the new men, especially Stafford and Bannan, and a line can be taken by the result of their first exhibition game. New Yorkers need have no fear whatever in regard to the ultimate outcome. Both will turn out stars.

After the game was over Manager George C. H. Davis was interviewed in smiles, and to "The Evening World" reporter he exclaimed:

"What I tell you, isn't he a peach? Talk about your Peppers or McPecks, why, they won't be one, two, three, if they follow the pace this boy will cut out. I suppose I don't know anything about ball-players' peaches. Well, I guess you can tell me, for he's a ball-player all over."

He had eleven chances, and he accepted all with but one error, and that was due to the bad condition of the field. In attempting to throw a ball to the plate to catch a runner, he slipped in the soft sand and the throw went low. Several of his teammates were standing order and his throwing was great.

"Joe" Murphy was in the very first inning. After Amos had sent Bannan and Murphy to first on balls, Bannan had a ball hit to him, Murphy made a dash for second. Farrell threw to draw on Bannan. The ball worked, and a free single was hit. Stafford returned the ball quick as a flash, catching Bannan at the plate.

Tommy Bannan also showed himself as an infielder. He had four chances, two of which he made perfectly. Tommy also did good work with the willow. One of his best catches was made a double, a sacrifice and got a base on balls.

Both "Tot" Murphy and "Shorty" Fuller at short came in for much applause for their clever work. "Murphy" made two very nice catches, one backward, and Fuller pulled down what looked to be a safe hit between third and short.

Frank Knauss is something of a fielder, and he had a fine catch of a ball down two difficult lies in right field. Smith, the new catcher, made a very favorable impression. He had a good backstop, throws well and is a fairly good hitter.

The pitchers are in good condition, cannot be doubted. In the first five innings but one run was scored by the boys, and the crowd was in a "chewing match" with Umpire Bell on one occasion, and when the crowd began to say him, he turned around and said:

"This is a catch. This fellow can't see and he'll kick all I please. President Freeman was not much pleased over the showing made by the boys, and feels confident of winning the pennant.

Lester German met with an unfortunate accident after the game. While dressing he accidentally stepped on a piece of glass, cutting his foot badly. He will be lame for several days as a result of it.

Eddie Burke was lost during the game yesterday. Instead of having Burkeville back of him, Eddie was in front of a lot of society people who saw the game from their carriages. At first the hero of Burkeville was a little bashful, but after he warmed up he had lots of fun with the pretty girls. Eddie says that unless Manager Davis changes him in the games played here, he is liable to excite the wrath of a cracker lover or two and get into trouble.

RETURNED LISS'S PAPERS.

Were Found on His Person at the Time of His Arrest.

Justice Grady turned to Liss, the alleged burglar, most of the papers that were found on his person at the time of his arrest.

Detectives McManus and Jacobs were present when the papers were given to Liss. After signing the papers, Liss checked his papers and left the courtroom.

Highest of all in Leaving Power.—Latest U. S. Gov't Report

THE VIGILANT'S TROPHIES.

Seven Cups Won by the Gould Yacht Club Placed on Exhibition.

There were placed on exhibition in Tiffany's window yesterday morning seven cups won by George and Howard Gould with the Vigilant in English and Irish waters last summer. They are all

THE VIGILANT'S TROPHIES.

fine specimens of the silversmith's art and their beauty.

By far the most beautiful trophy is the gold cup presented by the Prince of Wales. It is the lower's present to the victor as a result of the match race be-

twen the Vigilant and the Britannia, sailed over the Queen's course (forty-eight miles), at Cowes, on Aug. 4, 1894. The cup is twelve or fifteen inches high. On the gold base is a golden female figure, kneeling. On her shoulder rests a cup, and above this is a golden Neptune, reclining on a golden half a dozen golden dolphins.

Another trophy is a punch-bowl, won at the Royal Ulster regatta on July 17. On the right of the group is the trophy won in the Royal St. George's regatta.

DOWNY AND SIDONS DRAW

Five Battling Bouts at the Pater-son Opera-House.

Referee Unable to Pick Winners in Three Hot Fights.

The boxing show of the Active Athletic Club, in the Opera-House, Pater-son, N. J., last night, was a rattling success. What the curtain was raised there were fully 2,000 persons present, among whom were many from this city, Brooklyn, Long Island, Staten Island, and Jersey City, Duitenburg and Hoboken.

W. Cushing and Tom Wilson were the first pair at 125 pounds. They put up a hot fight, Wilson being in bad shape in the second round. He rallied and fought back, an extra round being ordered. Cushing got the decision.

Another 125-pound pair were Pete Howard and George Walmsley. The latter's science was better than Howard's rushes, but the work was heavy and both were weak. An extra round was ordered, and the bout was given to Walmsley. Cushing refused to meet the winner as was arranged.

Jimmy Carroll accepted Jack McCall's challenge to the world for the lightweight championship. The Atlantic Athletic Club offers \$5,000 for the winner, and the possibility of interference with the mill. Still nothing is said about weight limit.

Right on this subject, won't somebody please fix the standard weight limit in the different classes and stop this kind of a feather-weight in the ring at 120 pounds, light-weight at 140 and middle-weight at 160?

At the New Manhattan Athletic Club's boxing bout, one fall, fifteen minutes, between Hugh Malone and Angelo Nappa. The balance of the fight was a draw. Angelo Nappa, a former champion, was a very good fighter. He was a very good fighter. He was a very good fighter.

Eddie Connell, of Jersey City, and Dave O'Connor, of Paterson, weighed in at 175 pounds. Matters were fairly even for five rounds, both punishing the body with a masterly use of the fists. O'Connor was sent to grams and came up groggy, but stayed. Again in the eighth he was in queer street. He fought back, Referee Eckhardt decided it a draw.

The event of the evening was a six-round bout between George Siddons, the famous "Bout" fighter, and Jack Downey, the promising Brooklyn lad. They fought at 125 pounds. For five rounds Downey had things pretty much his own way, punishing Siddons heavily in the face, heart and ribs. In the sixth Siddons rounded up his energies and cut loose, sending Downey to his knees with a right swing on the jaw. He swung right on to the body, and Downey was down. Referee Eckhardt decided it a draw.

The Executive Committee of the National Cycle Union, which is a United States body, has as permanent headquarters. Rooms have been rented in the Vanderbilt Building, corner Bleecker and Nassau streets, and the office is equipped with an efficient working basis. The board now proposes to build itself into a broad field of usefulness and power in the American cycling industry, in which are invested scores of millions of dollars. Members desiring advice and assistance from the board will at all times receive prompt attention by addressing The Cycle Board of Trade.

Sam Babin, who stood George Dixon off six rounds, and J. McFadden, of the Clippert Athletic Club, will meet in a six-round bout at the box office at 125 pounds. The bout will take place in the armory, Ninety-third street and will be a feature of the day for the boys will look at catchweights.

Joe Kingsworth is trying to get on a fight with Sam Babin in a United States bout, in a fight, before the club offering the largest purse of \$100 that can be defeated Babin.

Maximilian, Henry C. Williams, of the New York Athletic Club, last night, defeated Conle Sullivan and Dennis Haugh to meet in a six-round bout at 125 pounds. The bout will be given by the Club on Saturday evening, March 30.

Jimmy German, the ex-100-pound champion, is of the opinion that he can defeat George Rose, whom he met in an eight-round bout, which was declared a draw in Paterson last night, and will be a feature of the day for the boys will look at catchweights.

The weather forecast for the thirty-six hours ending at 5 P. M. to-morrow is as follows: Generally cloudy, with an occasional sprinkle of rain and snow; stationary temperature; north-easterly winds.

The following record shows the changes in the temperature during the morning hours, as indicated by the thermometer at Perry's pharmacy: 5 A. M., 32.6 A. M., 32.9 A. M., 33.2 A. M., 33.5 A. M., 33.8 A. M., 34.1 A. M., 34.4 A. M., 34.7 A. M., 35.0 A. M., 35.3 A. M., 35.6 A. M., 35.9 A. M., 36.2 A. M., 36.5 A. M., 36.8 A. M., 37.1 A. M., 37.4 A. M., 37.7 A. M., 38.0 A. M., 38.3 A.
